

The Stevens Family

The Stevens Family has been traveling in music ministry since 1985. Their ministry has been described as one that spans the generations. A concert with SF offers a variety, as their music can't really be labeled as one particular style. From traditional to adult contemporary, from a cappella arrangements to orchestral accompaniment, from the original songs they have written to a fresh arrangement of an old hymn or an intimate moment singing around the piano - their approach to music ministry has never been a 'one size fits all' mentality. They have shared their ministry in well over 4000 concerts in 35 states, Ontario and Quebec, Canada, as well as the West Indies, England and Romania. Each year they travel thousands of miles, crossing many denominational lines. The purpose of their ministry is to offer encouragement and hope through the message of the Gospel in song.
